TRANSFORMATION AGENDA

THE NEED FOR TRANSFORMATION

To harness the competitiveness of Malaysia's tourism industry in an increasingly competitive and uncertain world by increasing revenue, securing partnerships and investments, empowering local communities, and ensuring the sustainability and resilience of the industry.

Terrapuri Resort, Terengganu

BREAKING OUT OF THE COMFORT ZONE

There are signs that Malaysia's tourism industry is stuck in a comfort zone. Existing tourism products are becoming "tired" and unattractive due to the lack of creativity and innovation, resulting from the over-dependence on the government and a silo mentality. The inability to harness a service culture has resulted in a real or perceived deterioration in service quality in comparison to our ASEAN neighbours. Poor destination management has also led to unsustainable physical development and negative tourist experiences. Finally, an over-reliance on traditional marketing and promotion has left Malaysia behind in terms of embracing Smart Tourism. Hence the need to re-invent and transform the industry so as to remain competitive.
